

## **Band Plan for Butte Local Digital-Mode Practice Frequencies**

### **Command Net: 147.105 +**

Alt: 146.655 – Tone 136.5 Hz

Use this for voice coordinating digital operations on other bands

### **2 Meter FM Digital: 145.500**

Alt: 145.525, 145.565, 145.580

Misc. and experimental modes, so voice OK too here. Tune up using BPSK-31, then switch to BPSK-250, MFSK pix mode, or SSTV after you get a good waterfall report on psk-31.

### **1.25 Meter FM Digital**

**223.560**

**223.720**

**223.660** Packet keyboard-to-keyboard

### **10 Meter SSB Digital; 28.133 USB**

Tune up use BPSK-31, then switch to MT63-1000, or MFSK-16, cross-band voice on 2, digital on 10.

### **10 Meter SSB Voice: 28.303 USB**

Voice and MFSK pix-mode, cross-band voice on 10, digital on 2.

### **6 Meter operations: 50.303**

All modes legal here, so stay on frequency and use voice, digital, and image.
